

**Waldo Oosthuizen** | Jnr front-end web developer

072 389 5842 |waldoosthuizen1234@gmail.com

## **- SUMMARY -**

I am a creative musician pivoting towards a career in web development. While this career shift might seem unconventional, I believe that my dedication, discipline and creativity are transferable skills that will make me a valuable asset to any web development team.

## - WORK HISTORY -

Fret Not Music School | Co-owner

Tutor & Web Developer 2017 to Present

- Co-own and operate a music tutoring company specializing in instructing both adults and children in various musical instruments.
- Designed, developed, and currently oversee the Fret Not Music School website, demonstrating proficiency in web development and management.

Lami Cleaning & Hygiene Care | Admin Clerk

Admin Clerk 2017 - 2021

- Procured cleaning chemicals, brushes and equipment, ensuring timely deliveries.
- Processed invoices for creditors.
- Strategically planned routes for drivers to optimize efficiency.
- Managed the office tuckshop, maintaining inventory and ensuring a well stocked and organized space.
- Conducted cost analysis and calculations to support budgeting and financial decision-making.

## **- EDUCATION -**

Academic Institute Of Excellence | Full Stack Web Development

NC: NQF5: Systems Development August 2022 to August 2023

Completed a full-stack web development course covering essential technologies and concepts, including:

- HTML, CSS and JavaScript for front-end development.
- MongoDB and PostgreSQL for database management.
- Node.js for server-side scripting.

- Angular.js and React.js for building web applications.
- Photoshop for web design.
- Personal development training that focused on business understanding and self improvement.
